Activities to help reverse the effects of COVID-19

Primary Schools - November 2020

WHY USE PHYSICAL ACTIVITY? – THE RECOMMENDATIONS & EVIDENCE FOR SCHOOLS

Education and childcare settings: New National Restrictions (Nov 2020):

It is important that children continue to remain fit and active and, wherever possible, have the 60 active minutes of daily physical activity recommended by the Chief Medical Officers

UK Chief Medical Officers' Physical Activity Guidelines (Sept 2019):

- Children and young people should engage in moderate-to-vigorous intensity physical activity for an average of at least 60 minutes per day across the week. This can include all forms of activity such as physical education, active travel, after-school activities, play and sports*
- Children and young people should engage in a variety of types and intensities of physical activity across the week to develop movement skills, muscular fitness, and bone strength
- Children and young people should aim to minimise the amount of time spent being sedentary, and when physically possible should break up long periods of not moving with at least light physical activity

* Subject to any restrictions/guidance issued by Government in response to COVID-19

The link between pupil health and wellbeing and attainment—Public Health England (Nov 2014):

Research evidence shows that education and health are closely linked. So promoting the health and wellbeing of pupils and students within schools and colleges has the potential to improve their educational outcomes and their health and wellbeing outcomes.

IDENTIFYING THE EFFECTS OF COVID-19

Schools are recognising a range of effects on children's health and wellbeing of COVID-19 which are summarised here:

EFFECT	WHAT YOU MIGHT SEE IN SCHOOL
Loss of functional capacity (physical fitness)	Inability to sustain physical activity for sufficient time
Lacking movement competence (physical skills)	Lack of coordination, inability to sit for any length of time, walk efficiently, over-fidgety, poor writing/presentation of work etc
Suffering loneliness, social isolation and lack of belonging	Lack of friends, lack of immediate reconnection to previous friendship groups, falling out, lack of connection with group tasks
Anxiety, bereavement, trauma or stress	Indicators of these effects will vary as each young person will experience them differently but you may see changes in behaviour, engagement, attention, resilience, they may complain of feeling ill or feel guilt, anger, shame, anxious, sadness, and worry about their own health/death
Inactivity (too much time indoors)	Lack of enjoyment of school, especially of time outdoors at break time or in PE for example
Lack of motivation and confidence	Not willing to try new things, lack of resilience, low self esteem

USING THE SCHOOL GAMES MARK FRAMEWORK TO SUPPORT THIS WORK

The School Games Mark Framework has been designed to help schools to reflect on their provision, align this to their COVID-19 recovery curriculum and consider which pupils need sustained/targeted intervention. Completing the Framework will help you reflect on your response. You can find out more by speaking to your SGO or visiting: <https://www.yourschoolgames.com/how-it-works/school-games-mark/>

HOW CAN THE ACTIVE SCHOOL PLANNER HELP ME INCREASE ACTIVITY?

The Active School Planner is a collection of resources and ideas, along with a heat map tool to help you understand the various ways your school could improve its physical activity offer. Visit <https://www.activeschoolplanner.org/> or speak to your SGO for more information.

HOW TO USE THE PHYSICAL ACTIVITIES DIRECTORY

Once you have identified the impact COVID-19 has had on a child or group of children in your school simply scroll through the directory to the sub-section dealing with that effect and choose an activity which can support your interventions.

Remember that an intervention can be designed specifically for an individual or small group but can also be valuable when delivered with larger groups, especially to support improved social connection.

The activities have been tagged to show where they can be undertaken:

In the classroom

In a hall or outdoor space (e.g. in PE or at breaktimes)

At home
