

Vale Royal School Sport Partnership School Community Links Directory 2022/23

Welcome to our updated School Club Links Directory! This document has been created to help schools within the partnership develop stronger relationships with community organisations who offer children the opportunity to be physically active across Northwich & Winsford. We hope that you find the directory useful both in terms of having the key contacts for local organisations in one place but also to help schools recognise how each club can support them for the benefit of all young people. It is the intention to update this directory on a regular basis and feedback regarding improvements is always welcome!

Please note that the clubs featured in this directory are not necessarily recommended by Vale Royal School Sport Partnership - the Club Mark scheme may be helpful here, however schools may also wish to make visits to the club and meet key staff in order to satisfy themselves of the quality and safety of the activities.

How should I use this directory?

- PE Subject Leaders can use this to establish links to community providers for the benefit of their PE, School Sport & Physical Activity provision.
- The directory may be printed and displayed somewhere in your School but please do not post it to your School website, learning platform or public social media pages.

What factors help make an effective School Club Link?

A school-club link is an agreement between a school and a community sport club to work together to:

- Meet the needs of all young people, whether they want to get involved as an elite performer; to enjoy sport and develop their skills; for social or recreational reasons; to maintain or develop their fitness; as a young leader or coach; as a club officer.
- Provide new and varied opportunities for young people
- Help young people to realise their ambitions in sport by providing pathways for them to follow
- Agree good standards of provision and put in place quality controls, and club and school developments, to ensure that standards remain high.

For the purposes of the School Games Mark, the following should be considered in your honest assessment of these links:

- Are young people from your school actively supported to transition into this club?
- Is your school part of the club's (clubmark or equivalent) accredited school-club link agreement with their National Governing Body?
- Does the club interact directly with the school, for example by supporting the coaching of teams or the provision of equipment, kit or venue?
- Does the club run sessions or a satellite club with your school?
- Does a poster/advert for the club really constitute an active link?

How should schools record the links they establish?

For the purposes of the School Games Mark, the following evidence is suggested:

- List of clubs/contacts and rationale for link, e.g. club coaches within school
- Promotional material to support these links e.g. posters
- Registers of young people that have taken the pathway from school to club

Schools can use our School Club Links agreement to direct any conversation around links with clubs or organisations. This agreement is designed to be simple to use whilst covering most of the possible areas of collaboration. The agreement can be downloaded at <https://bit.ly/3XHs4dH>

Check out our community pathways webpage: <https://valeroyalschoolsport.org/community-pathways/>
